What You Need to Know About the
New Medicare Prescription Drug Coverage

46th District Report — Fall 2005

Dear neighbor,

More and more Americans are relying on drug therapies to treat chronic conditions and their out-of-pocket drug expenses have increased dramatically. You've probably heard about Medicare's new prescription drug coverage. It's called "Medicare Part D", and it starts on January 1, 2006.

As long as you are already on Medicare, you are eligible to enroll in this program, regardless of your income or resources.

Although enrollment is voluntary, most beneficiaries will have to make choices to avoid losing opportunities for savings or protections. These decisions must be made between Nov 15, 2005 and May 15, 2006.

I want you to be well informed so that you can make the best choice when the time comes. This guide will help you learn more about what the Medicare Plan D is and how it's going to work. It also shows where you can get more information to help you make good choices for yourself and your family.

And remember, if you have questions, comments or ideas for new state laws, let me know, I'm getting ready for the 2006 legislative session and your input helps me serve you better.

Sincerely,

Phyllis Gutiérrez Kenney — State Representative

Representative Phyllis Gutiérrez Kenney

Prescription Drug Coverage

RX Medicare

Getting started

The new prescription drug coverage includes a variety of plans. Ease the decision-making process by preparing early. Grab some paper and a pen, and gather the information that will help you make the best educated choice:

- List all the medications you currently take, the dosage and how much they're costing you.
- List the names, addresses and phone numbers of the pharmacies where you purchase your medicines.
- If you already have prescription drug coverage, compare it with various Medicare Prescription Drug Plans and see if one of them saves you more than your current coverage.
- Talk to your family members, friends, pharmacists and doctors to get their thoughts on the best plan for you and make notes so you can compare later.
- Keep all this information in one place so you can have it handy when you enroll for coverage beginning November 15, 2005.

Medicare Part D Guidelines

If you join Medicare Part D there will be a monthly premium and your prescription costs will vary depending on the particular drug plan you choose. In more detail:

- Your monthly estimated premium will be \$32.00 to \$40.00; the exact premium amount will depend upon which prescription drug plan you choose.
- You'll pay a \$250 annual deductible.
- You'll then pay the remaining 25% of the next \$2,000.
- After the \$2,000, you'll pay the 100% of the next \$2,850.
- Catastrophic coverage (95% paid by Medicare) begins after you've paid \$3,600 of out-of-pocket expenses.
- On average, you'll be saving about 50% on your total costs for drugs, even after paying your monthly premium and co-payments.
- Your benefits may vary depending on your income.
- Your premium may increase annually.

Extra Help for low-income individuals

Low-income Medicare beneficiaries who sign up for the Part D subsidy will be able to enroll in a plan that will not charge them a monthly premium. But be careful about which plan you choose, as some may still charge a premium.

- **If you're on Medicaid and Medicare, you will receive these benefits if you enroll in a plan. If you don't choose a plan, you'll be automatically enrolled and you can change plans later.**
 - No annual deductible.
 - You'll co-pay \$1 for generic and \$3 for brand name drugs up to \$3,600 out-of-pocket.
 - After \$3,600 out-of-pocket, Medicare pays all your other drug costs.
- **If your income is below \$12,919 (individual) or \$17,320 (couple) AND Your resources are less than \$6,000 (individual) or \$9,000 (couple):**
 - No annual deductible.
 - You pay \$2 for generic and \$5 for brand-name drugs.
 - After \$5,100 out-of-pocket, Medicare pays all your other drug costs.
- **Your resources are between \$6,000-\$10,000 (individual) or between \$9,000-\$20,000 (couple):**
 - Monthly premium of \$0 to \$24 (depending upon your income)
 - Your deductible for the first year is \$50 (This amount will increase annually)
 - After the first \$50, you pay 15% of drug costs up to \$5,100.
 - After \$5,100 out-of-pocket, you pay \$2 for generic and \$5 for brand-name drugs.
- **If your income is between \$12,919 and \$14,355 (individual) or \$17,320 and \$19,245 (couple) AND your resources are less than \$10,000 (individual) or \$20,000 (couple):**

- Monthly premium of \$0 to \$24 (depending upon your income)
- Your deductible for the first year is \$50 (This amount will increase annually)
- After the first \$50, you pay 15% of drug costs up to \$5,100.
- After \$5,100 out-of-pocket, you pay \$2 for generic and \$5 for brand-name drugs
